

INVITATION

**Brainfood over lunch:**  
*Managing Chronic Inflammatory Disease  
in Patients with Malignancy*

Wednesday 1. July 2026  
12:00–13:00 p. m.  
Virtual

CREDIT  
REQUESTED

Dear Colleagues,

We are pleased to invite you to the second edition of our lunch webinar “Brainfood over Lunch.”

This year, we will focus on the treatment of chronic inflammatory diseases in patients with existing or previous malignancies.

These complex clinical situations require careful risk–benefit assessment as well as close interdisciplinary collaboration. In a compact format, we offer practical insights, current therapeutic considerations, and interdisciplinary case examples from dermatology, rheumatology, and gastroenterology.

Our experts will discuss evidence-based strategies and provide insights in shared decision-making in daily clinical practice.

We look forward to your participation and to a stimulating professional exchange.

## Speakers

**PD Dr. med. C. Iking-Konert**  
Head of Rheumatology  
Städtspital Zürich

**PD Dr. med. M. Sulz**  
Lead Physician in Gastroenterology  
Kantonsspital Münsterlingen

**PD Dr. Dr. med. Ahmad Jalili**
